Get a one-of-a-kind Burque
Birding GeoFlight coin, while
supplies last, by answering at
least nine out of the twelve
questions in this passport. Make
sure to post your cache finds at
www.geocaching.com.

Also, take a featured bird card
from the cache. If the question
or bird card is missing from the
cache, call 505-314-0398.

Visit www.bernco.gov/openspace for more information.

The Burque Birding GeoFlight caches all have a bird theme in celebration of Albuquerque's highly esteemed designation as a member city of the Urban Conservation Treaty for Migratory Birds (UCTMB). Discover what makes Albuquerque a special place for birds, name the common birds, and have fun geocaching at some of the area's most scenic birding sites. A limited number of bird coins are available for cachers who find at least nine out of the twelve geocaches on their GeoFlight.

About Burque Birding

Urban Conservation Treaty for Migratory Birds (UCTMB)

This program works with cities and partners to conserve migratory birds through education, hazard reductions, conservation and habitat improvement strategies in urban/suburban areas.

The UCTMB is a U.S. Fish and Wildlife Service project started in 1999. Albuquerque and Denver were named as national cities in 2014 due to the abundant local, state and federal protected land that supports wildlife and serves as ideal nesting and migratory bird habitat.

Burque Birding GeoFlight Passport

This Passport is the property of:

(geocache name)

(email address and phone number)

Leave No Trace

The essentials of responsible geocaching:

- ⇒ Never bury caches or place caches far off the trail.
- ⇒ Never leave food items in a cache.
- ⇒ Avoid sensitive areas such as fragile soils, steep slopes, archaeological sites.
- ⇒ Leave caches only on durable surfaces along existing trails.
- ⇒ Replace rocks or other natural objects lifted during a search.
- ⇒ Find routes that minimize impact to natural resources.
- ⇒ Leave places looking as if the seekers had never been there.
- ⇒ Check with local land managers before placing a cache.

Burque Birding Featured Birds

Each geocache site in the Burque Birding GeoFlight features a different migratory bird corresponding to the month you might see the bird. When visiting the site, pick up a collectible card. Find the cache at each site and collect all 12 cards.

- January– Sandhill Crane, *Grus Canadensis*
- February– White-Crowned Sparrow, *Zonotrichia leucophrys*
- March– Yellow-Rumped Warbler, *Setophaga coronata*
- April– Red-Winged Blackbird, *Agelaius phoeniceus*
- May–Western Tanager, *Piranga ludoviciana*
- June– Black-Chinned Hummingbird, *Archilochus alexandri*
- July– Indigo Bunting, *Passerina cyanea*
- August– Western Bluebird, *Sialia Mexicana*
- September– Blue-winged Teal, *Anas discors*
- October– Ruby-crowned Kinglet, *Regulus calendula*
- November– Northern Shoveler, *Anas clypeata*
- December– Bald Eagle, *Haliaeetus leucocephalus*

Burque Birding GeoFlight Coins

While supplies last, to receive your one-of-a-kind coin, complete at least 9 of the 12 questions on this passport and have it validated at the City of Albuquerque Open Space Visitor Center located at 6500 Coors NE, Albuquerque, NM 87120. They are open Tuesday—Sunday 9a.m.-5p.m. Call ahead at 505-897-8831. If you experience any problems with this program, call BernCo Open Space at 505-314-0398.
